

To the Yukon Legislative Assembly:

This Petition of the undersigned shows:

THAT the Alsek Renewable Resource Council (ARRC) is a voice for local community members in managing our renewable resources, such as fish, wildlife and forests,

THAT it is the understanding of the undersigned that John Trotter has applied for re-appointment to the ARRC and to date, the Minister of Environment has chosen not to re-appoint Mr. Trotter, despite there being no other applicants,

THAT the undersigned believe Mr. Trotter is one of the hardest working ARRC members our community has ever had, has been a valued member of the community for over 30 years, and has a great understanding of the local issues,

THAT Mr. Trotter has also been the lead on many projects for the ARRC, and the undersigned believe for the continuity of these projects, it would best if he were to be re-appointed, and

THAT the signatories to this petition live within the Champagne & Aishihik Traditional Territory, and would like see Mr. Trotter serve another term on the ARRC.

THEREFORE the undersigned ask the Yukon Legislative Assembly to urge the Minister of Environment to re-appoint John Trotter to the Alsek Renewable Resource Council.
