RE: “Mr. Speaker, on page 4 of this year’s budget highlights, it says that there is \$42 million allocated for municipal and First Nation infrastructure this year.”

“Mr. Speaker, would the minister be able to provide us with a legislative return detailing the breakdown of the \$42 million referenced in the budget highlights?”

The response is as follows:

The attached list includes projects that we have identified to provide an indication of which projects we are likely to undertake under each fund. It is not an all-inclusive list and it will change as projects receive the necessary approvals or as they are tendered and timelines are confirmed.

We are committed to ongoing discussions with First Nations and municipalities to ensure infrastructure priorities are identified.
