

LEGISLATIVE RETURN

SUBMITTED BY: Hon. Ranj Pillai

On June 12, 2017, Kate White, Member for Takhini-Kopper King

- asked the following questions during the Oral Question Period at page(s) 880, 881 of Hansard
submitted the following written question - WQ No.
gave notice of the following motion for the production of papers - MPP No.

RE: When will this government take concrete steps toward the interim protection of environmentally sensitive areas until a territory-wide plan exists? Will this government be bringing forward amendments to make helmet use mandatory for all ORV users in Yukon?

The responses are as follows:

Discussions are ongoing regarding Off Road Vehicle (ORV) use in environmentally sensitive areas. Amendments to the Territorial Lands (Yukon) Act in 2013 provided government with the ability to develop regulations to manage ORV use in environmentally sensitive areas. Since then Yukon government held a public consultation and developed a "What We Heard" document. Through that process it is evident this is a complex and multi-faceted issue. Yukon government continues to work with First Nations as well as various stakeholders to identify workable solutions together prior to bringing forward the regulation.

Helmets are required at all times for Off Road Vehicle drivers and passengers under the age of 16 years. Helmets are required for all drivers and passengers over 16 on highways maintained by the Government of Yukon, with exceptions for some roads in communities.
