SPEAKER'S STATEMENT

"Before proceeding to Question Period, the Chair would like to make a statement regarding Oral Question Period. Yesterday, it was noticed not only by the Chair but also by Members on both sides of the House that questions and answers in many cases were too long. The Chair would remind Members of two of the guidelines for Oral Question Period:

Guideline seven states in part that 'A brief preamble will be allowed in the case of the main question and a one-sentence preamble will be allowed in the case of each supplementary question.'

Guideline nine states that 'A reply to a question should be as brief as possible, relevant to the question asked, and should not provoke debate.

It is clearly the will of the House that Members should pay stricter attention to the Guidelines for Oral Question Period which the House itself adopted. The Chair would ask all Members to help the Chair and the House by respecting and obeying those guidelines. The Chair, understanding the wishes of the Members, will be stepping in more often if the questions or answers are too long."

GOVERNMENT PRIVATE MEMBERS' BUSINESS
MOTIONS OTHER THAN GOVERNMENT MOTIONS

Moved by Mr. Livingston:

THAT it is the opinion of this House that:

- (1) Yukoners deserve reliable, affordable and accessible telephone service;
- (2) the present telephone service does not adequately serve the varied needs of rural and urban Yukoners;
- (3) the Canadian Radio-television and Telecommunications Commission has a responsibility to Yukoners to ensure that regulated competition facilitates lower long distance rates, improved service and extension of services in underserved areas;
- (4) all telephone services directed towards basic home and business use in the Yukon should be regulated by the CRTC to ensure reliable, affordable and accessible service;
- (5) the Government of the Yukon should urge the CRTC to direct telecommunications companies operating in Canada to establish a fund to expand the Yukon's telecommunications infrastructure; and
- (6) the Government of the Yukon should actively pursue all avenues to promote reliable, affordable and accessible telephone service in the Territory. **(Motion #72)**

A debate arising on the motion, it was moved by Mr. Jenkins, in amendment thereto:

THAT Motion #72 be amended by adding the following paragraph:

- "(7) the Hansard of the debate on this motion be forwarded to CRTC to advise it of the views of the Yukon Legislative Assembly on this important issue."

A debate arising on the amendment and the question being put, it was agreed to.

A debate arising on Motion #72 as amended, it was agreed to on the following recorded Division:

| Keenan | Hardy | Cable | | |
| Sloan | Livingston | Edelman | | |
| | NAY | | | |

0

Moved by Mr. Hardy:

THAT it is the opinion of this House that:

- (1) the Government of Canada has unfairly restricted access to income support for Canadians who have paid into Unemployment Insurance (renamed Employment Insurance) throughout their working lives; and
- (2) despite a projected \$20 billion cumulative surplus by the end of 1998, the Government of Canada has unfairly reduced EI benefits, eliminated training programs and appropriated workers' money to pay down the deficit;

THAT this House expresses strong opposition to the federal Liberal Government's ongoing attempts to dismantle this vital component of our social safety net, causing great hardship to the victims of Canada's structural unemployment; and

THAT this House calls for the billions in savings, which restrictions to unemployment insurance have produced, to be used to restore the program to meet the real financial and training needs of unemployed workers. **(Motion #73)**

A debate arising on the motion and the time reaching 5:30 p.m., while Mr. Hardy, Member for Whitehorse Centre, was still speaking to it, the Speaker, pursuant to Standing Order 2(2), recessed the House until 7:30 p.m. and debate on Motion #73 was accordingly adjourned.

OPPOSITION PRIVATE MEMBERS' BUSINESS
MOTIONS OTHER THAN GOVERNMENT MEMBERS

Moved by Mr. Ostashek:

- (1) as well as represents an attack on universality of Canada's social programs by replacing a public pension system with a minimal welfare system for the very poorest of seniors, and
- (2) imposes severe clawbacks on low and middle-income Canadians, robbing them of an ability to live their retirement in self-reliance and dignity;

and

(b) adding a new paragraph as follows:

THAT this House urges the federal Liberal Government to uphold the sacred trust of our country's obligations to its senior citizens by holding public hearings and cancelling proposed changes and cuts and restoring a comprehensive, universal public pension.

A debate arising on the amendment, it was moved by Mr. Phillips in amendment thereto:

THAT the amendment moved by the Member for Whitehorse Centre to Motion #68 be amended by:

- (1) adding the expression "in Yukon" after the expression "public hearings" where it appears in the last paragraph; and
- (2) adding the following new paragraph:

GOVERNMENT PRIVATE MEMBERS' BUSINESS
MOTIONS OTHER THAN GOVERNMENT MOTIONS

Moved by Mr. Hardy:

THAT it is the opinion of this House that:

- (1) the Multilateral Agreement on Investment (MAI), sponsored by the U.S.A., supported by Canada, and currently the subject of secret negotiations by the 29 industrial nations in OECD (the Organization for Economic Cooperation and Development), represents a major attack on the autonomy and self-determination of governments at all levels; and
- (2) the democratic process which Canadians so value is seriously threatened by the MAI whose aim is to remove control of the economic process from the people's elected representatives and to consolidate it in the hands of transnational corporations; and

THAT this House calls on the federal Government to cease all negotiations on the MAI and to facilitate full participation of all Canadians in major decisions affecting our economic future. **(Motion #82)**

A debate arising on the motion, it was moved by Mr. Jenkins in amendment thereto:

THAT Motion #82 be amended by adding the work "left-wing" before the word "governments"; and

THAT subclause (2) and the last clause be deleted and replaced with the following:

"(2) the democratic process which Canadians so value is seriously threatened by these left-wing governments whose aim is to remove control of the economic process from the people's elected representatives and to consolidate it in the hands of transnational unions;

THAT this House calls on the federal Government to proceed with negotiations on the MAI to facilitate full participation of all Canadians in major decisions affecting our economic future."

SPEAKER'S STATEMENT

"Before proceeding to Question Period today, the Chair would like to address the rules and practices regarding anticipation during Question Period. Yesterday, the Government House Leader raised the matter as a Point of Order.

Standing Order 19(1)(e) states:

'A member will be ruled out of order by the Speaker if that member anticipates any matter on the order or notice paper.'

Guideline 12 of the Guidelines to Oral Question Period states:

'A question is out of order if a debate is scheduled for that day on the same subject matter.'

Annotation 513(1) of Beauchesne's Sixth Edition states:

'In determining whether a discussion is out of order on the grounds of anticipation, the Speaker must have regard to the probability of the matter anticipated being brought before the House within a reasonable period.'

In our House, "reasonable period" means the same day.

Yesterday, the Chair had been informed prior to the Sitting that the Supplementary Estimates were to be called for Second Reading. It is difficult for the Chair to know if questions on specific matters will be the subject of debate at the Second Reading stage on a budget Bill. In such cases, when doubt exists, the Chair will tend to allow a question to be asked.

It must be noted that the Chair had been advised that three Bills other than the Supplementary Bills would be called for debate prior to calling the Supplementaries when the House resolved into Committee of the Whole last evening. The Chair, therefore, could not have foreseen that the potential for anticipation existed. As it happened, however, the Supplementaries were called first and the subject matter of the questions put in Question Period by the Leader of the Official Opposition could have been raised at that time but was not.

As is usual when preparing a statement, precedents from the House of Commons of Canada were reviewed. It was found that the House of Commons decided in April, 1997, that restricting questions in Question Period on the basis of anticipation is outmoded and it directed that the Speaker should no longer enforce the guideline.

The anticipation rule still exists here, however, and the Chair must continue to make rulings based on it at this time. The Chair would remind the House that Ministers are not required to answer questions. If the Chair fails to notice that a question has been asked on a subject that will be up for debate later that day, a Minister can decline to answer based on anticipation. The Chair hopes that this will clarify the matter."

Moved by Mrs. Edelman:

THAT it is the opinion of this House that:

- (2) alcohol abuse is destructive to personal relationships, and contributes to domestic violence;
- (3) alcohol abuse is a significant factor in health care costs to Yukoners;

- (4) impaired driving is a serious problem for Yukoners and alcohol abuse is a significant factor in the commission of other crimes; and
- (5) misuse of alcohol during pregnancy is causing increasing concern among Yukoners, because of the disabilities that those persons suffering from Fetal Alcohol Syndrome/Fetal Alcohol Effects encounter, and because of the effects on our education system; and

THAT, recognizing the seriousness of alcohol abuse in the Yukon, the Yukon Government should create a Task Force composed of all affected government departments to recommend a specific and immediate action plan to be implemented by the Government of Yukon to mitigate the detrimental effects of alcohol in the Yukon.

GOVERNMENT PRIVATE MEMBERS' BUSINESS

MOTIONS OTHER THAN GOVERNMENT MOTIONS

Moved by Mr. Hardy:

THAT it is the opinion of this House that:

- (1) the Government of Canada has unfairly restricted access to income support for Canadians who have paid into Unemployment Insurance (renamed Employment Insurance) throughout their working lives; and
- (2) despite a projected \$20 billion cumulative surplus by the end of 1998, the Government of Canada has unfairly reduced EI benefits, eliminated training programs and appropriated workers' money to pay down the deficit;

THAT this House expresses strong opposition to the federal Liberal Government's ongoing attempts to dismantle this vital component of our social safety net, causing great hardship to the victims of Canada's structural unemployment; and

THAT this House calls for the billions in savings, which restrictions to unemployment insurance have produced, to be used to restore the program to meet the real financial and training needs of unemployed workers. **(Motion #73)**

Moved by Mr. McRobb:

- (2) Alaskan Senate Joint Resolution #12 of the Alaska State Legislature in support of continued funding for completion of the highway reconstruction project is recognized and welcomed,
- (3) efforts by the Government of Yukon to work in partnership with the neighbouring Government of Alaska to secure the required funds for project completion should continue unabated, and
- (4) the Government of Yukon should communicate the position of this Assembly to the Governments of Canada and the United States. **(Motion #53)**

SPEAKER'S STATEMENT

"Before proceeding to Question Period, the Chair would like to make a statement about questions raised during Question Period yesterday, December 8, 1997.

The questions raised by the Member for Riverdale North contained allegations about the activities of certain other Members outside of this House.

This House has a number of precedents for such situations. They include rulings made by Speaker Sam Johnston on April 27, 1992 and May 5, 1992 and by Speaker John Devries on May 4, 1994.

In his ruling of May 5, 1992, Speaker Johnston brought to Members' attention a ruling that was made in the House of Commons by Speaker Roland Michener in 1959. Speaker Michener said that simple justice requires that no Member should have to submit to investigation of his conduct by the House or a committee until he has been charged with an offence. The proper procedure for charging a Member with an offence is to move a substantive motion containing the charge and a proposal for dealing with it.

For such a motion to be in order, it must charge a Member with conduct that amounts to breach of privilege, or which disqualifies a Member from sitting in the House, or which amounts to contempt of the House.

Speaker Johnston also said:

'Only courts of law make decisions as to whether or not someone has broken the law. It is not the place of Members of this House to make such judgments. Allegations or accusations that a Member is guilty of breaking the law, therefore, must be viewed as being unparliamentary until such time as a court has reached a verdict finding that the law has been broken or a Member has openly admitted to breaking the law.

'... [T]he Chair would once again ask that Members be careful to ensure that they respect the rules concerning parliamentary language and that they be particularly careful about not making allegations or accusations about other Members.'

Speaker Devries also cited these authorities and Speaker Johnston's decision when he made a statement to the House on May 4, 1994 regarding questioning of the then Government Leader by the Member for Faro.

Speaker Devries said:

'I would also refer the House to Standing Order 19, which states, 'A Member shall be called to order by the Speaker if that Member

(h) imputes false or unavowed motives to another Member;

(j) uses abusive or insulting language of a nature likely to create disorder.

'Additionally, guideline 8 of the Guidelines for Oral Question Period states:

'A question must adhere to the proprieties of the House in that it must not contain inferences, impute motives or cast aspersions upon persons within the House or out of it.'

The Chair would ask that Members obey the directions found in the Speakers' rulings that I have referred to. If a Member feels it is necessary to place allegations before the House about another Member's actions, it is essential that this be done in the form of a motion containing the charge being made and a proposal for dealing with it. It must be understood that to raise allegations in Question Period will most likely be in violation of the rules respecting parliamentary language and that the Member would, consequently, be ruled out of order."

QUESTION OF PRIVILEGE

Ms. Duncan, Member for Porter Creek South, rose on a question of privilege with regard to not being provided with a copy of a document, entitled "Interim Contract Registry", which she stated was vital to the performance of her duties as a Member of the Yukon Legislative Assembly.

The Speaker received comments from the Government House Leader and the Leader of the Official Opposition and then took the question of privilege under advisement.

International Human Rights Day

The Hon. Ms. Moorcroft, Minister of Justice, Mr. Phillips, Member for Riverdale North, and Mr. Cable, Member for Riverside, recognized International Human Rights Day.

SPEAKER'S RULING

"Before proceeding to Question Period the Chair will provide a ruling on the question of privilege raised on December 9, 1997 by the Member for Porter Creek South.

The Member met the notice requirement found in Standing Order 7(1)(b) by submitting a written notice to the Office of the Speaker at 10:00 a.m. on December 9.

Standing Order 7(4) states that the Speaker must rule on (a) whether there appears, on the face of it, to be a case of breach of privilege, and (b) whether the matter has been raised at the earliest opportunity.

With regard to whether the matter was raised at the earliest opportunity, the Government House Leader stated that he felt that the matter should have been raised the previous day. He referred to a ruling made on April 24, 1997 on a question of privilege raised by the Member for Kluane. That ruling has been reviewed and does not apply to this situation. The Chair found that the Member for Kluane was raising a point of order and not a question of privilege. Points of order must be raised at the time that the event occurs.

There are many precedents of this House where Members have raised questions of privilege on the next sitting day after the event being questioned has taken place. This allows Members time to review Hansard to give careful consideration to the matter before deciding whether they will raise it in the House. Also, the House indicated its intent that a matter could be raised on a following sitting day when it adopted Standing Order 7(1)(b) and its requirement for written notice.

The question for the Chair to decide on, then, is whether the Member for Porter Creek South has raised a question which, on the face of it, is a possible breach of privilege. The Chair finds that there is not a breach of privilege. The refusal of the Government to produce a document requested by a Member is neither a point of order nor the basis of a question of privilege.

The question of whether a document should be produced is a matter of deliberation for the House. It can be discussed at a number of times including Question Period, debate on the estimates of the departments and on a Motion for the Production of Papers. It, however, is not a matter for the Speaker to rule on.

There is one further point the Chair would comment on. The Member for Porter Creek South said that a media person seemed to be receiving favoured treatment over Members of the House in terms of access to a publicly-available document. It is not the place of the Chair to investigate such allegations but the Chair is sure that Ministers would not want restrictions to apply to Members of this House that do not apply to anyone else. "

OPPOSITION PRIVATE MEMBERS' BUSINESS **MOTIONS OTHER THAN GOVERNMENT MOTIONS**

Moved by Mr. Jenkins:

THAT it is the opinion of this House that the proposed user fee charges for air navigation services in Canada will add to the cost of air service, specifically air cargo, in the north, and have a significant impact on tourism, exploration and the cost of basic goods; and

THAT this House urges NAV Canada to reconsider its proposal to replace the air transportation tax with user fees so that northern Canadians do not bear any additional costs than what is currently being charged for air navigation services. **(Motion #70)**

A debate arising on the motion, it was moved by the Hon. Mr. Keenan in amendment thereto:

THAT Motion #70 be amended by deleting the second paragraph and replacing it with the following paragraphs:

"THAT it is the opinion of this House that:

- (1) NAV Canada may be seeking to reduce national staffing levels and service;
- (2) NAV Canada may be planning to close the Whitehorse Air Traffic Control Tower (ATC) and have all service provided by Flight Information Services (FSS); and
- (3) staffing reductions and closure of the Air Traffic Control Services (ATC) would result in overall reduction of services to Yukon consumers;

and

THAT this House urges NAV Canada to reconsider its proposal to replace the air transportation tax with user fees, and strongly objects to Canada's Minister of Transport approving NAV Canada reduction of staffing levels and services."

A debate arising on the amendment, it was moved by Mr. Jenkins in amendment thereto:

THAT the amendment to Motion #70 be amended by deleting all of the words after subclause (2) in the amendment and by adding the following words:

"THAT this House urges NAV Canada to reconsider its proposal to replace the air transportation tax with user fees and ensure the highest possible level of public safety and the provision of equivalent levels of service."

A debate arising on the sub-amendment and the time reaching 5:30 p.m. while Mr. Hardy was speaking to it, the Speaker, pursuant to Standing Order 2(2), recessed the House until 7:30 p.m. and debate on the sub-amendment, on the amendment and on Motion #70 was accordingly adjourned.
