During the recent territorial election, a letter from the Chief of the Ross River Dene Council was sent to all parties highlighting the risks the community faces regarding unsuitable housing and how it is affecting the health and safety of its citizens.

The Liberal Party committed to take action and provide temporary, emergency housing to the citizens in Ross River for the winter, and indicated it would work with the community to identify permanent solutions and associated funding Spring 2017. - (1) could the Minister provide clarification for her comments regarding the government's intention to follow-through with its election commitment to provide emergency housing for Ross River over the winter;
- (2) could the Minister provide a timeline as to when the government intends to carry out this commitment to the citizens of Ross River currently situated in unlivable housing conditions, and;

Mr. Hassard, Leader of the Official Opposition

In regards to the previous request from the Official Opposition that the Government of Yukon release the content of all briefing materials provided in the government transition binders;

whereas the Minister of Justice has previously stated that the amendments to the *Access to Information and Protection of Privacy (ATIPP) Act* passed in 2012 allowing government to deny access to documents including briefing notes prepared for ministers, is "contrary to the purpose of the ATIPP legislation", which "enshrines

the fundamental right that citizens deserve to know how their government is making its decisions” and;

whereas the Minister of Highways and Public Works has previously stated that “the new Liberal government wants to make sure it is only redacting or withholding very specific information and making most of it available” and;

whereas the new government as a whole has made a commitment to create a more open and transparent government, increase the amount of government information available to Yukoners, and repeal most, if not all, amendments to the ATIPP Act passed in 2012, which they consider to be “unprecedented”, can the Minister provide answers to the following questions:

- (1) does the government believe that Yukoners are better served when they have access to more information;
- (2) does the government believe that citizens deserve to know how their government is making its decisions;

- (4) does the government believe that withholding documents from opposition members and the public contributes to a more open and transparent government for Yukoners;
- (5) does the government believe that denying access to documents including briefing notes prepared for ministers, is contrary to the purpose of the ATIPP legislation:
 - (a) if so, can the government clarify the comments from a Cabinet Spokesperson who indicated to media on January 11, 2017 that briefing notes prepared for ministers will not be made public; and
- (6) will the government consider releasing the content of all briefing material provided in the government transition binders?
