MINISTERIAL STATEMENTS

Hon. Ms. Duncan, Premier

- Visit of His Royal Highness, The Prince of Wales

COMMITTEE OF THE WHOLE

According to Order, the Assembly resolved into Committee of the Whole.

Before proceeding to debate on Bill #4, entitled *First Appropriation Act, 2001-02*, the Chair gave the following ruling:

“A Point of Order was raised by the Honourable Minister of Education at the last meeting of Committee of the Whole during general debate on the Government’s appropriation measures, set out in Bill #4. The Minister requested ‘a ruling from the Chair on whether or not questions can be asked both ways in this House in general debate.’ The Member for Ross River-Southern Lakes and the Member for Kluane provided input to assist the Chair in considering the Point of Order, for which the Chair thanks the Members.

It is important to recall that the relatively informal proceedings in Committee that we call ‘debate’ or ‘general debate’ are situated within a formal context and set of rules. Debate does not occur within a vacuum; there must be a proposition or motion before the House or Committee for consideration. In most cases, the matter before the House or Committee is one sponsored by the executive, by Cabinet. It is a fundamental role of Members of the House then to scrutinize the policies and proposals of the executive, and to hold the Cabinet accountable. And it is the role of members of the executive to respond to Members’ comments as they see fit.

In a circumstance where the matter before the House or Committee were, for example, a Private Member's Public Bill sponsored by a Member of the Opposition, or by a Backbench Member of the Government side, it would be appropriate for Members, including members of the executive, to question the proponent of the legislation. That is not, however, the matter currently before the Committee. The Committee of the Whole is considering the Government's appropriation measures, for which Cabinet members collectively and individually are answerable.

In reviewing the relevant precedents of this House, the Chair notes that the Honourable Minister previously raised the issue as to 'whether I am able to ask questions of members opposite' on Thursday, June 29, 2000. The ruling of the Chair at that time, while recognizing that such questioning by Cabinet Ministers of Members opposite had occurred, noted that it had not worked very well, and clearly discouraged the continuation of the practice.

Your Chair accepts the wisdom of that ruling, and further requests that those who propose a measure for consideration not spend the time of the House in asking direct questions to other Members. In the course of debate, there will be opportunities and other means available for Members to express their own positions while identifying and exploring the positions of their colleagues opposite."

Chair's Statement (re references to Commissioner)

"Order please. Before we take a recess at 4:30 p.m., the Chair wishes to raise a matter of concern to make sure that it does not happen again.

Earlier this afternoon, the Member for Klondike made reference to the Commissioner of the Yukon. If the Chair heard the Member correctly, he referred to the Commissioner as the 'Liberal Commissioner'. On page 523 of the *House of Commons Procedure and Practice*, it is stated: 'Members are prohibited from speaking disrespectfully of the Sovereign, the Royal Family, the Governor General or the Administrator of the Government of Canada.' It is also noted, in a footnote, that discourteous references to Lieutenant Governors are also ruled out of order.

In the Yukon, the Commissioner acts in the capacity of Lieutenant Governor and, as such, the Yukon's head of state. This House has always been careful to note that the role of Commissioner, when he or she is present in the House and the Chamber, is that of our head of state.

Therefore, Members must refrain from speaking disrespectfully of our Commissioner and of the Commissioner's Office. The Chair believes that attaching a political label to the Commissioner is disrespectful and asks that the Member and all other Members of this House obey the strict guidelines against referring to our Commissioner in any way but honourably."

Progress was reported on the following Bill:

Bill #4 - First Appropriation Act, 2001-02

OPPOSITION PRIVATE MEMBERS' BUSINESS

MOTIONS OTHER THAN GOVERNMENT MOTIONS

Moved by Mr. Fentie:

THAT it is the opinion of this House that:

- (1) throughout the first seven months of this Liberal Government's term of office, the Premier and Minister of Economic Development has failed to create a positive climate for economic growth in the territory, as promised, and
- (2) as Minister of Economic Development, she has abandoned programs that created badly-needed jobs for Yukon people, she has dropped the options on waterfront land in Haines and Skagway, Alaska, that would have guaranteed Yukon businesses ongoing access to tidewater, and she has neglected the aggressive Trade and Investment Strategy initiated by the previous NDP Government, and
- (3) in spite of inheriting a huge accumulated surplus of \$64 million, as Minister of Finance, she tabled a supplementary budget containing no provisions for winter works this year, and

- (4) as Premier and Minister of Economic Development, she has repeatedly given answers in this House with respect to the agreement with the City of Whitehorse and Argus Properties Ltd. that are inconsistent with answers provided outside this House by members of her political staff; and

THAT this House has lost confidence in the Premier's ability to discharge her duties as Minister of Economic Development in a credible and effective manner, and urges her to assign the Economic Development portfolio to another member of her caucus without delay. **(Motion #63)**

Debate started on the motion.

Quorum Count

At 1:53 p.m., during debate on Motion #63, Mr. McLarnon, Member for Whitehorse Centre, rose on a Point of Order to state that there did not appear to be a quorum present. Pursuant to Standing Order 3(2), the Speaker rang the bells and then did a count. A quorum was present for the count.

- Federal Tax Credit for flow-through share investors: letter (dated December 15, 2000) from federal Minister of Finance, the Hon. Paul Martin, to the Hon. Pat Duncan, Premier **(Filed Document #11)**

Moved by Mr. Jenkins:

THAT it is the opinion of this House that the newly created Project Yukon funding program is but a faint shadow of the former Community Development Fund;

THAT funding for community projects has been dramatically reduced in recent years from a high of \$6 million in the 1999-2000 Budget to a low of \$1.5 million in the 2001-2002 Budget; and

THAT this House urges the Yukon Liberal Government to scrap Project Yukon and restore the Community Development Fund with a proper level of funding while introducing a system of accountability to ensure Yukon taxpayers are receiving value for their money.

(Motion #77)

SPEAKER'S RULING (re references to absence of Members)

"Before proceeding to business under Orders of the Day, the Chair will provide a deferred ruling. Members will recall that, on March 7, 2001, the Chair took under advisement a Point of Order regarding references being made, during debate, to the absence of Members. The Chair is also aware that this matter has come up in the Committee of the Whole.

The specific statement taken under advisement was that made by the Leader of the Third Party when he said: 'It is interesting to note that the government of the day is so concerned with the decorum and the way that the House operates that they can't even maintain a presence here.' When a Point of Order was raised about this statement, the Leader of the Third Party said: 'I made no reference to specific Members being absent, I believe that's what the Standing Orders refer to. I made reference that the government couldn't maintain a quorum in the House.'

The Standing Orders of this Assembly do not, in the provisions respecting rules of debate, address references being made to the absence or presence of Members. However, based on parliamentary authorities such as *Beauchesne*, it has long been the practice of this House to prohibit drawing attention to the absence of Members. Annotation 481 in *Beauchesne's* sixth edition states that a Member, when speaking, must not 'refer to the presence or absence of specific Members.'

Further, on page 522 of *House of Commons Procedure and Practice*, it is stated:

'It is unacceptable to allude to the presence or absence of a Member or Minister in the Chamber. The Speaker has traditionally discouraged Members from signalling the absence of another Member from the House because "there are many places

that Members have to be in order to carry out all of the obligations that go with their office.”

A footnote to the statement in *House of Commons Procedure and Practice* cites eight examples between 1994 and 1999 when the Chair ruled on references to the absence or presence of Members. These show that Members have been ruled out of order for statements such as:

‘... the five Liberals in the House ...’;

‘Members stood today and acted as if this place was full of people taking notice of the debate and not even a dozen people are here.’;

‘I do not even see a Minister in the House during the debate of this very important issue.’;

‘My question is for the Deputy Prime Minister in the absence of the Prime Minister.’

‘In the absence of the Minister of Fisheries and Oceans who until very recently was in Brussels ...’

It is very clear from this that even the most oblique references to who is present and who is not are not allowed. Members will recognize from experience in this House that such statements tend to lead to disorder in the House. This point is very much reinforced for anyone who reviews the Hansard of March 7, 2001. Members, therefore, will appreciate why it is necessary for the Chair to rigidly enforce the prohibition against drawing attention to a Member’s presence or absence.

In conclusion, the Chair finds the statement made by the Leader of the Third Party on March 7, 2001, on which a Point of Order was raised, to have been out of order. The Chair appeals to all Members to consider this ruling and to respect the prohibition against referring to the absence - past or present - of any fellow Members during debates or votes in this House.”

SPEAKER'S RULING (re request for "clarification" of March 14, 2001 ruling on references to absence of Members)

"Before proceeding to business under Orders of the Day, the Chair will provide a deferred ruling. This ruling is in respect to a Point of Order raised by the Leader of the Third Party on March 15, 2001.

The Leader of the Third Party stated: 'I rise to seek clarification of your ruling yesterday, Mr. Speaker, concerning a Point of Order regarding reference being made during debate to the absence of Members both in the Assembly and in Committee of the Whole.'

In concluding his presentation, the Leader of the Third Party said: 'In view of your ruling yesterday, even the most oblique reference to who is present and who is not is not allowed. Will you please clarify if a Member who draws to the attention of the Speaker that there is no quorum present pursuant to section 3(2) above will now be found to be out of order and ruled out of order in contravention of your ruling. Mr. Speaker, I seek your clarification.'

The Chair would draw Standing Order 6(1) to the attention of the Leader of the Third Party and the House. That Standing Order states:

'The Speaker shall preserve order and decorum, and shall decide questions of order. In deciding a question of order or practice, the Speaker may state the Standing Order or other authority applicable to the case. No debate shall be permitted on any such decision, and no decision shall be subject to an appeal to the Assembly.'

Members must recognize that attempts to 'seek clarification' of Speaker's rulings on the floor of the House, no matter how skilfully put, will inevitably constitute entering into debate with the Speaker on Speaker's decisions and, consequently, pursuant to Standing Order 6(1), will be out of order. However, as is noted on page 263 of *House of Commons Procedure and Practice*, Speakers may, of their own accord, clarify or even amend rulings. That, though, would be done on a Speaker's own initiative and not in answer to any Member's questioning a ruling on the floor of the House.

Having said that, the Chair will expect Members, in the future, to refrain from asking for 'clarification' of Speaker's decisions as was done by the Leader of the Third Party on March 15, 2001.

In this case, and without creating a precedent, the Chair will make the assumption that the Leader of the Third Party did not recognize that what he was doing on March 15 was out of order and will provide an answer to the question posed by him at that time. "

Standing Order 3(2) states:

'If, at any time during a sitting of the Assembly, the Speaker's attention is drawn to the fact that there does not appear to be a quorum, the Speaker will cause the bells to ring for four minutes and then do a count.'

Standing Order 3(4) provides, in reference to the Committee of the Whole, similar direction.

It, therefore, has been and continues to be quite in order to draw the Speaker's attention to the apparent lack of a quorum. Members may say something like 'Mr. Speaker, there does not appear to be a quorum.' or 'Mr. Speaker, would you please determine if there is a quorum present.'

As was stated in the Chair's ruling of March 14, 2001, it is not in order to refer to the past or present absence of any Members, individually or as a group. This includes the moment when the Chair's attention is being drawn to the apparent lack of a quorum – editorial comments about who is present or absent are not in order.

I thank the House for its attention to this ruling.”

MINISTERIAL STATEMENTS

Hon. Mr. Eftoda, Minister of Renewable Resources

- Kluane Land Use Working Group Final Report

OPPOSITION PRIVATE MEMBERS' BUSINESS

MOTIONS OTHER THAN GOVERNMENT MOTIONS

Moved by Mr. Fentie:

THAT it is the opinion of this House that:

- (1) the development of a stable, sustainable forest industry in the Yukon could provide a major economic engine in the territory,
- (2) the Yukon Forest Strategy was developed through extensive public consultation to serve as a made-in-Yukon model for the management of this important resource following devolution of the Northern Affairs program to the Yukon,
- (3) the development of a stable, sustainable forest industry that respects the Yukon's environmental and social values has been severely impeded by ongoing mismanagement of the forest resource by the federal government,
- (4) this mismanagement has recently been demonstrated again with the inappropriate issuance of timber permits in the LaBiche area of southeast Yukon, and
- (5) the federal government's mismanagement of Yukon forest resources has hampered the territory's economic development, has failed to provide the necessary environmental safeguards, and has contributed to the delay in settling outstanding Yukon First Nations land claims; and

THAT this House urges the federal government not to proceed with any further forestry activity in the LaBiche area until the necessary resource assessments and required data are supplied by the federal government, so that Yukon people can make informed decisions respecting the forest resource that are consistent with the principles of the Yukon Forest Strategy and acceptable to Yukon First Nations and stakeholders in the affected region.

(Motion #93)

A debate arising on the motion, it was moved by the Hon. Mr. Eftoda, Minister of Renewable Resources, in amendment thereto:

THAT Motion #93 be amended by:

- (1) deleting the second item in the first paragraph and substituting for it:
"the Yukon Forest Strategy which was developed through extensive public consultation to serve as a made-in-Yukon model for the management of this important resource following devolution of the Northern Affairs program to the Yukon is a good start"; and
- (2) deleting, where they appear in the second paragraph, the words "that are consistent with the principles of the Yukon Forest Strategy and acceptable to Yukon First Nations and stakeholders in the affected region."

A debate arising on the amendment and the question being put, it was agreed to.

Moved by Mr. Keenan:

THAT it is the opinion of this House that:

- (1) like most parts of Canada, especially northern Canada, the Yukon is facing a possible shortage of doctors and other medical personnel; and
- (2) such shortages could pose a serious hardship for Yukon people, both in the City of Whitehorse and in rural communities; and
- (3) the recent departure of two doctors from Watson Lake makes it clear that this situation cannot be ignored and needs to be addressed without delay; and
- (4) this is an issue that requires thoughtful, long-term planning that should not be limited by partisan political considerations; and

THAT this House urges the Yukon Government to establish an all-party committee on a priority basis, to bring Members of the Legislative Assembly from both rural and urban Yukon together to examine options for solving the ongoing problem of recruiting and retaining medical personnel throughout the territory.

(Motion #31)

A debate arising on the motion, it was moved by the Hon. Mr. Roberts, Minister of Health and Social Services, in amendment thereto:

THAT Motion #31 be amended by:

- (1) removing clause (3) from the motion; and
- (2) replacing the words "THAT this House urges the Yukon Government to establish an all-party committee on a priority basis, to bring Members of the Legislative Assembly from both rural and urban Yukon together to examine options for solving" with the words:

"THAT this House urges the Yukon Government to continue working to solve"

Debate started on the amendment. Mr. Keenan, Member for Ross River-Southern Lakes, rose on a Point of Order as to whether the proposed amendment was in order.

Speaker's Ruling: (re whether the amendment is in order)

"The Member for Ross River-Southern Lakes has questioned whether the amendment moved by the Minister of Health and Social Services is in order. The Member for Ross River-Southern Lakes did not make clear to the Chair why he thought the amendment to be out of order.

The Chair has done a quick review of the Standing Orders and of *Beauchesne* and cannot find any grounds for ruling this amendment out of order. The Chair, therefore, is going to allow debate on this amendment to continue."

A debate continuing on the amendment and the question being put, it was agreed to on the following recorded Division:

SPEAKER'S STATEMENT (re reprinted Order Paper and calling of Motion #97 for debate)

"Before calling Opposition Private Members' Business, the Chair wishes to clarify which motions are to be called. Yesterday, the Leader of the Third Party, pursuant to Standing Order 14.2(3) identified Motion #96 and Motion #44 to be called for debate today.

Motion #96, pertaining to posting government contracts of government corporations on the government Web site, appeared on the Order Paper first distributed this morning. Following the distribution of the Order Paper, the Clerk's office was informed by the Third Party office that the text of Motion #96, appearing on the Order Paper, was incorrect. The Notice Paper for April 2, 2001, had been referenced by the Leader of the Third Party when identifying the motion to be called. A mistake had been made in the numbering of motions on that Notice Paper, as there were two motions numbered as 96.

The Clerk's office was informed that, when the Leader of the Third Party identified Motion #96 for debate today, he did not realize that there had been a mistake in numbering and that the motion he meant to have called was, in fact, Motion #97, which is on the subject of the Yukon Protected Areas Strategy.

The Clerk's office then produced and distributed a revised Order Paper with Motion #97 listed for debate, as the first item under Motions other than Government Motions.

The Chair has reviewed the circumstances surrounding this situation and recognizes the end result as being unfortunate. The difficulty that arises is whether to insist that the Leader of the Third Party proceed with a motion that he did not intend to call or to have a motion called that, because of the short notice, some Members may not be prepared to debate.

In this case, the Chair feels that, in light of the rule that provides the Leader of the Third Party to call a motion of his choice and that the misunderstanding about which motion was identified was clearly not the fault of the Leader of the Third Party, it is appropriate to substitute Motion #97 for Motion #96 and to permit it to be called today.

The Chair hopes the Members will not have been too greatly inconvenienced with these events and thanks them for their understanding."

OPPOSITION PRIVATE MEMBERS' BUSINESS
MOTIONS OTHER THAN GOVERNMENT MOTIONS

Moved by Mr. Jenkins:

THAT it is the opinion of this House that the five-point plan put forward by the resource users coalition group to correct the deficiencies in the Yukon Protected Areas Strategy should be adopted by the Yukon Liberal Government and include the following provisions:

- (1) give the secretariat supporting the Yukon Protected Areas Strategy independent status so that it is not tied to either the Department of Renewable Resources or the Department of Economic Development,
- (2) conduct full scale assessments of the economic impacts of protecting a particular area in addition to the full scale environmental assessments that are currently being done,
- (3) establish a cap on the total amount of area that can be protected under the strategy,

- (4) guarantee access to land that may be blocked through the creation of a protected area, and
- (5) create no more protected areas until the completion of the seven outstanding Yukon Indian Land Claims Agreements. **(Motion #97)**

A debate arising on the motion, it was moved by Mr. Fentie, Member for Watson Lake, in amendment thereto:

THAT Motion #97 be amended by deleting all the words from "THAT it is the opinion of this House" to the word "provisions" inclusive and substituting for them the following:

"THAT it is the opinion of this House that the Yukon Liberal Government should initiate meetings with the seven coalition members who have refused to participate in the Public Advisory Committee on the Yukon Protected Areas Strategy with a goal of establishing meaningful dialogue between all the partners in the YPAS process and to honour the commitment of the Yukon Liberal Government to give consideration to the following provisions:"

A debate arising on the amendment and the time reaching 6:00 p.m. while the Hon. Mr. Eftoda, Minister of Renewable Resources, was speaking to it, the Speaker, pursuant to Standing Order 2(2), adjourned the House until 1:00 p.m. the following day, and debate on the amendment and Motion #97 was accordingly adjourned.

The Assembly adjourned at 6:00 p.m. until 1:00 p.m., Thursday, April 12, 2001.

QUESTION OF PRIVILEGE (re organization of House business)

Mr. Fentie, Official Opposition House Leader, rose on a Question of Privilege regarding the organization of House business.

Speaker's Ruling

"Order please. The organization of House business is, of course, a very sensitive matter. Previous and present leaders in the House have shown how seriously they take such matters as they entered into a Memorandum of Understanding in 1996 and again this Spring.

Members must understand, as was referenced by the Leader of the Third Party, that the Memorandum of Understanding is an agreement between the parties in this House. The Memorandum of Understanding is not part of the rules of this House. It was never intended that the Memorandum of Understanding should be enforced or ruled upon by the Speaker.

The rules of the House, found in the Standing Orders, state that the Government may designate the business the House is to deal with on Mondays, Tuesdays and Thursdays. The Chair, therefore, must find that the Government's designation of Government Bills for Second Reading today is in order.

The Chair would recognize the Premier to speak to the motion for Second Reading of Bill #43."

MINISTERIAL STATEMENTS

Hon. Mr. Roberts, Minister of Health and Social Services

- Proclamation of *An Act to Amend the Children's Act* - Grandparents' rights

SPEAKER'S RULING (re Point of Order raised on April 12, 2001)

"A Point of Order was raised by the Official Opposition House Leader during Question Period on April 12, 2001 respecting the remarks of the Honourable Minister of Health and Social Services. The Member raised a concern that the Minister had, in responding to the questions of the Member for Ross River-Southern Lakes, contravened the rules of debate, and in particular the provisions of Standing Order 19(h).

That Standing Order states:

19. A Member will be called to order by the Speaker if that Member:
 - (h) imputes false or unavowed motives to another Member;

Having had an opportunity to review the Blues, the Chair finds that the remarks of the Minister included the following statements:

'...the Member opposite is great at innuendo, obviously just putting things out there without any substantial base. I would stress that there must be facts behind what the Member is saying. Otherwise it is, once again, just fanning a fire that is just not there.'

'If the Member has some statements to make - some categorical statements - about some issues that are not going well, and the Member opposite has specific incidents that the Member can cite, lay them out here in the House, instead of working on innuendo. The Member is famous for that. There's no fact behind it. Unless the Member is willing to lay the facts out, how is one to deal with it? It's just another one of those smoke-and-mirrors issues that the Member opposite is famous for.'

'Another infactual approach toward trying to present an issue where probably there isn't one.'

Following the raising of the Point of Order, the Chair finds that the Honourable Minister proceeded to make the following statements:

'It seems to me the time has come when the facts have to be presented; he can't just make innuendo comments.'

'The Members opposite keep fanning this issue like it doesn't want to go away. They don't want the issue to go away. For some reason, they don't want these children to heal.'

'That's called political hay. It's not looking at helping children; it's not looking at helping the situation; it's looking at how we play politics. ... We have very professional staff who are working very hard at trying to heal, trying to get the youth on the path of correctness, but if this keeps going, they'll never get on the path because the Members opposite want to make political hay.'

In the context of those remarks, the Chair must remind the House of a fundamental truth: all Members of this institution are honourable. Being honourable, all Members are presumed to speak the truth as they see it. Honourable Members do not, therefore, charge other Members with uttering deliberate falsehoods. Honourable Members do not ascribe to their colleagues false or unavowed motives. Being honourable, all Members are presumed to be speaking for, and acting for, the best interests of their constituents and Yukoners. It is for each Member to determine how best to fulfill their responsibilities within the context of the rules that govern this Assembly.

As is stated at page 503 of *House of Commons Procedure and Practice*,

'One of the basic principles of parliamentary procedure is that proceedings in the House of Commons are conducted in terms of a free and civil discourse. In order that debate on matters of public policy be held in a civil manner, the House has adopted rules of order and decorum for the conduct of Members towards each other and towards the institution as a whole. Members are to show respect for one another and for different viewpoints; offensive or rude behaviour or language is not tolerated. Emotions are to be expressed in words rather than acted out; opinions are to be expressed with civility and freely, without fear of punishment or reprisal.'

And at page 522, it is stated

'Remarks directed specifically at another Member which question that Member's integrity, honesty or character are not in order.'

Having reviewed the Honourable Minister's remarks, the Chair finds them to be, in their totality, troubling. While there is not a single instance of charging another Member with falsehood, the pattern of the Minister's remarks may well be interpreted as conveying that message even while avoiding the direct use of language previously found to be unparliamentary. The Chair further finds that the Minister's responses did in fact impute 'false or unavowed motives'.

The Chair therefore cautions the Honourable Minister not to attempt to convey, either directly or indirectly, a message that the Minister should well know would be ruled unparliamentary if uttered as a direct statement. The Chair further urges the Minister to refrain from making personal observations on individual Members that could be interpreted as questioning or disparaging a member's integrity or character."

SPEAKER'S STATEMENT (re attempted tabling of a document)

Following Question Period, the Hon. Mr. Schneider, Speaker, made the following statement:

“Order please. The Member for Klondike has attempted, during Question Period, to table a document which is an e-mail communication from an unidentified anonymous source. The content of that document, which the Member for Klondike read into the record, was offensive.

Members should recognize that they cannot bring something before the House that is unparliamentary on the basis that someone else has written it. That is out of order.

Because this has just happened and is deserving of reflection, the Chair directs that the Table not yet enter the document as a tabled paper of this House. The Chair will review the matter and report back at the next sitting day.”

SPEAKER'S RULING (re Tabling Documents)

"Order, please. Before proceeding further the Chair will provide a ruling on the matter arising from the actions of the Member for Klondike during Question Period on April 19, 2001.

The Chair wishes Members to recognize that this most serious matter is not something that has occurred without background. It is the culmination of an ever-increasing and escalating disregard for order and decorum in this House.

Let all Members understand that the very requirement that this ruling be given obliges every Member to reflect on what has led up to it. Let every Member also understand their personal responsibility to learn from this experience and to consider how they may contribute, on a regular basis, to greater civility in this Assembly.

The central issue at hand today has to do with an e-mail communication that the Member for Klondike read to the House and attempted to table in print format. Following Question Period, the Chair informed the House that the Chair intended to review the matter and that the Chair directed the Table Officers to delay entering the document into the records of the House pending this ruling.

The Member for Klondike, in the introductory comments to his question, remarked that 'the Premier has established the practice of tabling personal correspondence in the House.' This statement was in reference to an action taken by the Premier on the previous sitting day, April 18, 2001. During Question Period, the Premier read to the House a portion of a letter written by a private citizen. The Premier, at that time, provided the letter to the House as a filed document.

The Chair has reviewed the proceedings of April 18 and studied those proceedings in the context of the direction found in various parliamentary authorities. In *House of Commons Procedure and Practice*, it is stated at page 517:

'Generally, the reading of articles from newspapers, books or other documents by a Member during debate has become an accepted practice and is not ruled out of order provided that such quotations do not reflect on past proceedings in the House, do not refer to or comment on or deny anything said by a Member, or use language which would be out of order if spoken by a Member.'

The letter filed by the Premier did contain, as was made clear by the Premier, reference to and commentary on statements made in the House by the Member for Klondike.

The concern that this raises is that quotations from private correspondence are not to be used in a manner in which unelected private citizens can enter into debate on the floor of this Assembly. This restriction has been in place for a very long time. As far back as 1877, a Speaker of the House of Commons, quoted on page 108 of W.F. Dawson's *Procedure in the House of Commons*, stated:

'I cannot imagine anything so improper as that any gentleman, no matter how eminent [who is not a Member of the House], should be allowed to take his place in the House by having his opinions or his comments introduced upon what an honourable gentleman might say in his place in the House.'

The Chair feels, on reflection, that the events which took place on April 18 should have received attention. That could have been done either through the Chair's intervention or by a Member raising a Point of Order.

The conclusion reached by the Member for Klondike that an oversight on April 18 created what he called a 'practice' leading to Members being able to read any kind of private correspondence to the House is unfortunate. It does not, however, lead to a justification for his actions of April 19.

The Chair notes that the Member for Klondike did not identify the person who was the author of the e-mail he read to the House. As the Chair informed the House, the document forwarded to the Table by the Member was from an anonymous source.

It is stated on pages 517 and 518 of *House of Commons Procedure and Practice* that:

'Members may not . . . quote from correspondence when there is no way of ensuring the authenticity of the signature. They may quote from private correspondence as long as they identify the sender by name or take full responsibility for its contents.'

The Member for Klondike, then, has two choices – he may either inform the House of the name of the person who wrote the e-mail communication that he quoted from or he must take full responsibility for its contents.

The difficulty, of course, with either option is that the unparliamentary language and the extremely serious allegations contained in the communication have been made known and widely circulated through a variety of media. This includes the Assembly's Blues which are published both in print and on the Assembly's website, the television and radio broadcasts of the proceedings of this House, and newspaper and radio reports. Even were the House to order the offending remarks expunged from Hansard, a drastic and, for this House, unprecedented action, it would accomplish little to alleviate the harm already done.

The freedom to speak freely in this House is the most important of all the privileges of Members. It is a right that this Assembly and other parliamentary institutions have diligently guarded because it is essential to Members being able to represent and speak on behalf of their constituents to the fullest degree without fear of reprisal. However, it is a humbling right that carries with it the absolute requirement that it be exercised in a careful, responsible manner because its abuse can bring great harm to others and to the reputation of this institution and all its Members. The Member for Klondike must understand that, in doing what he has done, he has lost sight of his obligations and failed to meet a standard of behaviour that can rightly be expected of Members of this Assembly.

What can be done now?

First and foremost, the Chair must, on behalf of the House, require the Member for Klondike to withdraw the offensive language that he uttered.

The Chair will also call upon the Member for Klondike to name the author of the e-mail.

Whether or not the Member for Klondike names the person, he will possess some level of responsibility for what has taken place. If he does not, the result will be that the words will be considered to be his own. If he does, he still has to take the responsibility for having uttered the words in this House. As is stated on page 387 of *Erskine May* (22nd edition):

'A Member is not allowed to use unparliamentary words by the device of putting them in somebody else's mouth.'

The Member for Klondike must be aware that this matter may not end here. The House is capable of taking such action as it may choose including censuring the Member or referring the matter to a committee for consideration.

If referred to a committee, the issue that would be under consideration would be that of the production of the e-mail communication to the House; no Member should be under any illusion that a committee would be passing judgement on the allegations contained in it.

If the Member for Klondike wishes an investigation of the allegations found in the communication, he has his own options, including private ones, for action. If he chooses to pursue the matter in this House, he must propose a motion containing the charges he is prepared to make and his proposals for dealing with those charges.

In a moment, the Chair will recognize the Member for Klondike solely for the following three purposes:

- (1) The Chair calls upon the Member to withdraw completely and unequivocally the offensive language that he used in the House last Thursday.
- (2) The Chair calls upon the Member to inform the House now of the name of the person who is the author of the e-mail communication that the Member for Klondike read to the House

on April 19, 2001. As has been stated, if the Member for Klondike is unable to provide that information, he will take full responsibility in this House for the contents of that communication. Also, as has been stated, even if he does provide the name, he continues to be responsible for having spoken the words of that communication in this House.

- (3) The Chair will also allow the Member for Klondike to speak but only for the purpose of offering an apology.

Further, the Chair directs that the document the Member for Klondike attempted to table on April 19 not be entered in the working papers of the Assembly at this time. The Chair further directs that the Clerk maintain it in a secure place and place it in the working papers or make it available only upon receiving future instruction to do so from the House or the Chair.

The Chair now recognizes the Member for Klondike.”

Withdrawal of Remarks

Mr. Jenkins, Leader of the Third Party, withdrew the remarks. The Chair accepted that the Member for Klondike withdrew the remarks.

MOTIONS OTHER THAN GOVERNMENT MOTIONS

Moved by Mr. Jenkins:

THAT it is the opinion of this House that Canada's three northern territories should be treated equally by the Government of Canada in relation to the recognition of their respective offshore boundaries; and

THAT this House urges the Government of Yukon to ensure that Yukon's northern boundary description in the draft Yukon Act (1999) should be made more consistent with those of the Northwest Territories and Nunavut by amending Schedule 1 of that draft legislation as follows:

- (1) Change “on the north, by that part of the Arctic Ocean called Beaufort Sea” to “on the north by the northern limit of Canada in that part of the Arctic Ocean called Beaufort Sea.”
- (2) Replace paragraph 2 of the definition of “Yukon “ in section 2 of the draft Yukon Act (1999) with the following paragraph:
 2. “Yukon” includes the designated area of the Yukon Territory, comprising all land and water in Yukon to the south of the northern limit described in Schedule 2.
- (3) Elsewhere in the draft Yukon Act (1999) including the heading to Schedule 2, change “adjoining area” (or “Adjoining Area”) to “designated area” (or “Designated Area”) and include a consequential amendment to the effect that any references to “adjoining” (or “Adjoining”) in the *Oil and Gas Accord* should be interpreted in light of this change. **(Motion #44)**

Filed Document

During debate on Motion #44, the Member for Klondike filed the following document:

- Alaska Senate Bill #164: re lands adjacent to the Beaufort Sea
(Filed Document #16)

Moved by Mr. Fentie:

THAT it is the opinion of this House that:

- (1) the Yukon Liberal Government has needlessly delayed the conduct of public business during the current legislative sitting by refusing to be open and forthcoming in response to legitimate questions from the Opposition,
- (2) the introduction of several substantive amendments to legislation, contrary to the spirit and the letter of the all-party agreement on legislative sittings, has further hampered the Opposition in its legitimate role of holding the Government accountable for its spending priorities in the biggest budget ever tabled in Yukon history,
- (3) by its actions, the Liberal Government has indicated that it considers the all-party agreement to be null and void, and
- (4) it is not in the best interests of the Yukon public to allow the Government’s budget to pass without a thorough examination of its implications; and

THAT it is the opinion of this House that the current sitting of the Yukon Legislative Assembly should be extended beyond the 35-day limit called for in the all-party Memorandum of Understanding, and should continue sitting until such time as all the

business before the House has been given thorough scrutiny and can come to a vote of the Members. **(Motion #121)**

Moved by Mr. Jenkins:

THAT it is the opinion of this House that the Yukon Economic Outlook 2001 clearly shows that the Yukon Liberal Government's efforts to rebuild Yukon's shattered economy are not working; and

THAT this House urges the Yukon Liberal Government to revitalize the Yukon economy by implementing the following actions:

- (1) amending the 2001-2002 Budget by reducing operation and maintenance expenditures and increasing capital spending to help create more private sector jobs,
- (2) recommending proposals to the Government of Canada that will enable Yukon First Nations that have yet to settle their land claims to keep a more equitable portion of their settlement money rather than having to pay between 55% to 65% of this money to cover land claim negotiation costs,
- (3) ensuring that there are no more massive withdrawals of land from all development under the Yukon Protected Areas Strategy or Special Management Areas established under land claims,
- (4) planning the construction of a resource road in southeast Yukon in conjunction with First Nation governments and the community of Watson Lake in order to provide access to timber, minerals and oil and gas resources in the area,
- (5) increase personal income tax exemption, and
- (6) eliminating the federal and territorial taxes on gasoline and diesel as well as the GST on home heating fuels and electricity. **(Motion #86)**

Unanimous Consent to move from Opposition Private Members' Business to Government Business

At the commencement of debate, Mr. Jenkins, Member for Klondike requested unanimous consent for the following:

- (1) that the House proceed no further today with Motion #86; and
- (2) that the House be automatically resolved into Committee of the Whole and that it be restricted to dealing with Bill #4 in Committee of the Whole.

Unanimous consent was granted.

SPEAKER'S STATEMENT (re House Business)

Following the granting of unanimous consent, the Speaker made the following statement:

"The House will not proceed with Motion #86 at this time. The Chair directs the Clerk to identify the Member for Klondike as having adjourned debate on Motion #86 on future Order Papers.

As we are now in Committee of the Whole, the Speaker will now leave the Chair."

QUESTION OF PRIVILEGE (re Organization of House Business)

Mr. Fentie, Official Opposition House Leader, rose on a Question of Privilege relating to organization of House Business.

Speaker's Ruling on the Question of Privilege

"The Chair will now provide a ruling on the Question of Privilege raised by the Official Opposition House Leader.

The Official Opposition House Leader met the notice requirement found in Standing Order 7(1)(b) by submitting a written notice to the Office of the Speaker at 10:59 a.m. on today's date.

Standing Order 7(4) states that the Speaker must rule on (a) whether there appears, on the face of it, to be a case of breach of privilege, and (b) whether the matter has been raised at the earliest opportunity.

The normal practice of this House has been that, to meet the 'earliest opportunity' requirement, a Question of Privilege must be raised at the time the event occurred or on the next sitting day. With respect to the matter raised by the Official Opposition House Leader, the event has not taken place. The Official Opposition House Leader has informed the House of information provided to him during a House Leaders' meeting. He has stated that the Government House Leader notified the other House Leaders of an intention to move a motion to extend sitting hours.

The Chair must inform the House that discussions which occur in private between House Leaders do not have a formal place within the proceedings of the House. Members, therefore, should not expect the Chair to provide rulings based on information on what takes place in such meetings.

Further, in his written notice to the Chair, the Official Opposition House Leader made reference to the Memorandum of Understanding reached between Leaders in this House.

The Chair must inform the House, as has been done in the past, that the Memorandum of Understanding is an agreement between Leaders. It does not form part of the rules of this House and the Speaker has not been provided direction by the House to take notice of or to enforce its provisions.

With respect to the question raised today by the Official Opposition House Leader, the most important point is that the event that the Official Opposition House Leader objects to has not occurred. The Chair cannot make findings or rulings in advance of events because there is no certainty the events will occur at all. Even if certain events should occur, no one can be aware now of all the circumstances that would apply.

Keeping that caution in mind, this is a situation where the House has provided an explicit rule, being Standing Order 2(6), which identifies the procedure for extending sitting hours. Since the House has done that, it must be concluded

that the House itself has already determined that a motion to extend sitting hours would not be in violation of any perceived privileges.

The Chair, therefore, does not find there to be a *prima facie* breach of privilege.

This concludes the ruling. The House will now proceed to Orders of the Day.”

COMMITTEE OF THE WHOLE

According to Order, the Assembly resolved into Committee of the Whole.

Progress was reported on the following Bill:

Bill #4 - First Appropriation Act, 2001-02

MOTION TO SIT BEYOND NORMAL HOUR OF ADJOURNMENT

At 2:06 p.m., it was moved by Ms. Tucker, Government House Leader:

THAT the Assembly be empowered to sit beyond 6:00 p.m. for the purpose of considering Bill #4, entitled *First Appropriation Act, 2001-2002*, in Committee of the Whole; and for permitting the House to consider Third Reading of Bill #4; and for receiving the Commissioner to give Assent to the Bills passed by the House.

Debate started on the motion.

Quorum

At approximately 3:00 p.m., during debate on the motion to sit beyond the normal hour of adjournment, Mr. McRobb, Member for Kluane, rose on a Point of Order to state that there did not appear to be a quorum present. The Speaker found that, contrary to the view of the Member for Kluane, there was, in fact, a quorum present and ordered debate to continue on the motion.

Debate continued on the motion.

Quorum Count

At approximately 3:15 p.m., during debate on the motion to sit beyond the normal hour of adjournment, Mr. McRobb, Member for Kluane, rose on a Point of Order to state that there did not appear to be a quorum present. Pursuant to Standing Order 3(2), the Speaker rang the bells and then did a count. A quorum was present for the count.

The debate continuing on the motion to sit beyond the normal hour of adjournment, at 4:20 p.m., it was moved by Mr. Fentie, Official Opposition House Leader, in amendment thereto:

THAT the Motion currently under debate, entitled Motion to Sit Beyond Normal Hour of Adjournment, be amended by deleting the words "be empowered to sit beyond 6:00 p.m." and substituting for them the words "extend the current sitting beyond the 35 days stipulated in the Memorandum of Agreement signed by the three party leaders and continue to sit until no later than 6:00 p.m. on Thursday, May 10, 2001."

Speaker's Ruling

"The Official Opposition House Leader has proposed an amendment to the motion to extend hours moved by the Government House Leader.

The amendment is not in order because the motion to extend hours only applies to this sitting.

The content of the amendment proposed by the Official Opposition House Leader can only be presented as a substantive motion. It must, therefore, be given notice and appear on the Order Paper. As I have said, the amendment is out of order and if the Official Opposition House Leader wishes to continue with debate on the main motion, I will now recognize him."

The debate continuing on the motion to sit beyond the normal hour of adjournment and the time reaching 6:00 p.m. while Mr. Keenan, Member for Ross River-Southern Lakes, was speaking to it, the Speaker, pursuant to Standing Order 2(2), adjourned the House until 1:00 p.m. the following day, and proceedings on the motion to sit beyond the normal hour of adjournment were accordingly concluded.

The Assembly adjourned at 6:00 p.m. until 1:00 p.m., Thursday, May 3, 2001.

Mr. McRobb, Member for Kluane, and the Hon. Ms. Duncan, Premier, on behalf of all Members, paid tribute to World Press Freedom Day.

SPEAKER'S RULING (re tabling of road fragments)

"Before proceeding further the Chair will provide a ruling on the attempt by the Member for Klondike to table road fragments during Tabling Returns and Documents on Wednesday, May 2, 2001.

In the rules adopted by this House to govern its proceedings, Standing Order 11(2) sets out the order of the Daily Routine and provides the formal opportunity for any Member of this House to table a document, and for Ministers to submit Legislative Returns. Standing Orders 37 and 38 provide more detailed guidance to govern the tabling of documents.

The Chair would draw the attention of Members to Standing Order 38(2) in particular, which states:

'Any document presented to the Assembly by a member for the information of members may be tabled if accompanied by sufficient copies for distribution to all House Leaders and to the Table for placement in the working papers of the Assembly.'

While the Chair recognizes that the Member for Klondike kindly provided sufficient pieces for House Leaders, the Table and indeed all Members, it must be stated that the materials presented by the Member for tabling are not documents and therefore are not acceptable for placement in the working papers of the Assembly."

Legislative Assembly

The Speaker ruled that, accordingly, Petition #3 was deemed to be read and received.

MOTION TO SIT BEYOND NORMAL HOUR OF ADJOURNMENT

Unanimous consent having been requested by Ms. Tucker, Government House Leader, and granted to waive Standing Order 27(1) with regard to notice, it was moved by Ms. Tucker, Government House Leader:

THAT, to fulfill the agreement reached between House Leaders on behalf of their caucuses, this House orders:

- (1) the time for the sittings of the Assembly for the remainder of the 2001 spring sitting shall be as follows:
 - (a) Thursday, May 3, 2001 - 1:00 p.m. to 6:00 p.m.,
 - (b) Monday, May 7, 2001 - 1:00 p.m. to 6:00 p.m. and 7:00 p.m. to 9:00 p.m.,
 - (c) Tuesday, May 8, 2001 - 1:00 p.m. to 6:00 p.m. and 7:00 p.m. to 9:00 p.m., and
 - (d) Wednesday, May 9, 2001 - 1:00 p.m. to 6:00 p.m.;
- (2) the business to be considered under Orders of the Day on those sitting days shall be restricted to Bill #4, *First Appropriation Act, 2001-02*;
- (3) if Bill #4 should still be under consideration in the Committee of the Whole at 4:30 p.m. on Wednesday, May 9, 2001, the Chair shall interrupt proceedings and immediately put all questions necessary to conclude consideration of Bill #4 and then report to the Assembly;
- (4) a motion for Third Reading of Bill #4 shall be moved immediately after Bill #4 has been reported from Committee of the Whole;
- (5) each of the Leaders in the House shall be given a maximum of 20 minutes to speak to the motion for Third Reading of Bill #4;
- (6) if debate is continuing on the motion for Third Reading of Bill #4 at 5:45 p.m. on Wednesday, May 9, 2001, the Speaker shall interrupt the debate and put the question on the motion;
- (7) the House shall then receive the Commissioner to grant Assent to the bills which have passed the House; and
- (8) the House shall then adjourn.

(Motion #128)

The question being put on Motion #128, it was agreed to.

PETITIONS

The Clerk reported on Petition #4 as follows:

"Mr. Speaker and honourable Members of the Assembly:

I have had the honour to review a petition, being Petition #4 of the Second Session of the 30th Legislative Assembly, as presented by the Member for Ross River-Southern Lakes on May 3, 2001.

The first page of the petition contains the following prayer:

'Therefore, the undersigned ask the Legislative Assembly to urge the Commissioner in Executive Council to immediately commission a public inquiry under the *Public*

Inquiries Act into the policies, procedures and practices of Family and Children's Services.'

The prayer on the remaining pages of the petition is worded as follows:

'Therefore, the undersigned ask the Legislative Assembly to immediately commission a public inquiry under the *Public Inquiries Act* into the policies, procedures and practices of Family and Children's Services.'

As the Legislative Assembly is not capable of commissioning a public inquiry under the *Public Inquiries Act*, the portion of the petition that contains the prayer asking the Assembly to commission a public inquiry does not conform with the requirements respecting petitions.

However, the first page does contain a proper prayer asking the Legislative Assembly to do something which it is capable of doing. The wording of the petition text in both versions is, in all other regards, identical.

Whenever the Assembly has given consideration in the past to the rules governing petitions, the clear indication received is that, in cases where there is doubt, the Assembly would prefer the benefit of that doubt be provided to the petitioners.

Therefore, it is found that this petition meets the requirements as to form of the Standing Orders of the Yukon Legislative Assembly."

Patrick L. Michael
Clerk of the Yukon
Legislative Assembly

The Speaker ruled that, accordingly, Petition #4 was deemed to be read and received.
