NOTICE OF HOUSE BUSINESS FOR THE WEEK OF MARCH 24, 1997

The Hon. Mr. Harding, Government House Leader, stated:

"Mr. Speaker, the House Leaders have reached certain agreements about the management of House business for this week. At this time, I wish to outline those agreements for the House.

Today, there will not be a Question Period. Following completion of Daily Routine, the Opposition House Leaders will notify the House, pursuant to Standing Order 14.2, of the items to be called when the House proceeds to Private Members' Business on Wednesday, March 26, 1997. It is agreed that the Third Party may identify a motion for which notice will be provided today. We will then proceed to the Budget Speech which begins Second Reading of the main appropriation Bill for 1997-98. The Leader of the Official Opposition will move adjournment of debate and the House will then adjourn until Wednesday, March 26.

On Wednesday, the House will do Daily Routine and then go to Private Members' Business. The business for that evening is not yet fully established but it is intended to include Second Reading and the Committee of the Whole stage for the interim supply Bill, consideration of a motion to recommend appointment of an Ombudsman and consideration of a measure respecting Cabinet commissioners and their role during Ministerial Statements, Question Period and in Committee of the Whole. If time permits, we may call the interim supply Bill for Third Reading.

On Thursday, March 27, when the House moves to Orders of the Day, we will complete proceedings on the interim supply Bill, if that has not already been done, and then receive the Commissioner to grant assent to that Bill. We will then resume the budget debate by continuing Second Reading debate of the main appropriation Bill for 1997-98.

In order to fulfill the agreements reached between the House Leaders about the conduct of business for this week, it will be necessary, on occasion, to request the unanimous consent of the House to set aside the Standing Orders. At this time, I would request the unanimous consent of the House not to call Question Period today. I would also request unanimous consent to allow the Third Party, notwithstanding the requirements of Standing Order 14.2(3), to identify for debate on Wednesday a motion for which notice is provided today."

**UNANIMOUS CONSENT TO SET ASIDE QUESTION PERIOD
AND TO IDENTIFY A PRIVATE MEMBERS' MOTION**

The Hon. Mr. Harding, Government House Leader, requested and was granted unanimous consent to set aside Question Period on today's date and to allow the Third Party, notwithstanding the requirements of Standing Order 14.2(3), to identify for debate on Wednesday, March 26, a motion for which notice is to be given later this day.

Moved by Mr. Phillips on December 11, 1996:

THAT it is the opinion of this House that the universal licensing and registration associated with the Liberal Federal Government's Firearms Act (Bill C-68) will be costly and intrusive on property and civil rights, and will have little impact, if any, on reducing the criminal use of guns; and

THAT this House urges the New Democratic Party Government to continue the work of the previous Yukon Party Government in opposing Bill C-68 and join Ontario, Saskatchewan, the Northwest Territories and Manitoba in the province of Alberta's constitutional challenge of the new gun control law and opt out of the administration of this law if the challenge fails. **(Motion #13)**

GOVERNMENT PRIVATE MEMBERS' BUSINESS

MOTIONS OTHER THAN GOVERNMENT MOTIONS

Moved by Mr. Hardy:

THAT it is the opinion of this House that:

- (1) the Federal Government has broken faith with young people, seniors, First Nations people, single parents, people needing medical care, people receiving social assistance and other low-income Canadians, and
- (2) the Federal Government has neglected its duty as a national government by raising public expectations of funding for support programs to address social needs, only to retreat from those programs or attempt to offload responsibility to other levels of government to meet its political goals of deficit-reduction; and

THAT this House expresses strong disapproval of this neglect of duty, and urges the Federal Government to work with the provinces and territories to stop the offloading and restore funding to essential programs that addresses serious social needs.

(Motion #52)

A debate arising on the motion, it was moved by Mr. Cable in amendment thereto:

THAT Motion #52 be amended by deleting everything after the word "that" in the first paragraph and substituting for it the following:

"the Federal Government has reallocated their expenditures to reflect the priority Canadians place on social programs and deficit reduction;

the Federal Government, in the face of severe financial restraints, has provided stable, predictable and sustainable funding for health care and other social programs through the Canada Health and Social Transfer;

the Federal Government has kept their commitment to young people, seniors, First Nations people, single parents, people needing medical care, people receiving social assistance and other low-income Canadians by reducing the deficit, thereby stabilizing the Federal financial position, permitting the maintenance of funding of the Canada Health and Social Transfer."

MOTIONS OTHER THAN GOVERNMENT MOTIONS

Moved by Mr. Ostashek:

- (1) the Yukon Government should reconsider the Agreement-in-Principle reached between the Yukon Energy Corporation and Alberta Power Ltd. which includes the sale of \$4 million of YEC assets in contravention of a long-standing commitment by the Yukon New Democratic Party to oppose the sale of such assets to southern interests;
- (2) the agreement through such provisions as a twenty-year franchise for the Yukon Electrical Company Ltd. for residential and commercial customers will seriously

- impede the government's ability to use energy as a tool for economic development;
and
(3) the agreement will lead to the increased use of expensive and environmentally harmful diesel for energy generation and will do nothing to reduce the high energy costs to Yukon's electrical consumers. **(Motion #54)**

A debate was started on the motion.

Quorum Count

At 3:30 p.m., during debate on Motion #54, the Hon. Mr. Harding, Minister of Economic Development, rose on a Point of Order to ask if there were a quorum. The Speaker noted that a quorum was not present. Pursuant to Standing Order 3(2), he rang the bells and then did a count. A quorum was present for the count.

A debate continuing on the motion, it was moved by Mr. McRobb in amendment thereto:

THAT Motion #54 be amended by deleting paragraphs (1), (2) and (3) and substituting for them the following:

"that the Yukon Government should support the Agreement-in-Principle reached between the Yukon Energy Corporation and Alberta Power Ltd. that was approved by the Yukon Energy Corporation Board of Directors;
and

THAT this House urges the Yukon Energy Corporation to continue its hard bargaining position on behalf of Yukon ratepayers as they negotiate all outstanding aspects of the agreement."

Speaker's Statement

A Point of Order having been raised on the admissibility of the amendment, the Speaker stated:

"On the Point of Order, the Member for Riverside properly noted that there was a ruling, last week, on a matter that certainly bears some similarities. Without making excuses for a new Speaker, certainly one of the things that I have not had an opportunity to do, is adequately review the precedents. What I would like to do at this point is to defer a decision until the House sits tomorrow. I see that we are close to the end of the day. I would look for some guidance from the House Leaders in terms of how they would like to proceed at this time."

A debate continuing on the main motion and the time reaching 5:30 p.m. while the Hon. Mr. Sloan was speaking to it, the Speaker, pursuant to Standing Order 2(2), recessed the House until 7:30 p.m. and debate on Motion #54 was accordingly adjourned.

SPEAKER'S RULING

"The Chair will now provide a ruling on the Point of Order that was raised yesterday by the Official Opposition House Leader following the moving of an amendment to Motion #54 by the Member for Kluane.

For the record, Motion #54 reads as follows:

THAT it is the opinion of this House that:

- (1) the Yukon Government should reconsider the Agreement-in-Principle reached between the Yukon Energy Corporation and Alberta Power Ltd. which includes the sale of \$4 million of YEC assets in contravention of a long-standing commitment by the Yukon New Democratic Party to oppose the sale of such assets to southern interests;
- (2) the agreement through such provisions as a twenty-year franchise for the Yukon Electrical Company Ltd. for residential and commercial customers will seriously impede the government's ability to use energy as a tool for economic development; and
- (3) the agreement will lead to the increased use of expensive and environmentally harmful diesel for energy generation and will do nothing to reduce the high energy costs to Yukon's electrical consumers.

Also, for the record, the amendment moved by the Member for Kluane reads as follows:

"THAT Motion No. 54 be amended by deleting paragraphs (1), (2) and (3) and substituting for them the following:

"that the Yukon government should support the agreement in principle reached between the Yukon Energy Corporation and Alberta Power Ltd. that was approved by the Yukon Energy Corporation Board of Directors; and

THAT this House urges the Yukon Energy Corporation to continue its hard bargaining position on behalf of Yukon ratepayers as they negotiate all outstanding aspects of the agreement."

The Official Opposition House Leader stated, on the Point of Order, that the amendment changes the intent of Motion #54 and "by our rules we're not allowed to change the intent of the motion."

The Government House Leader said that he felt the proposed amendment was consistent with amendments that had been moved and accepted for debate in the past in this House.

The honourable Leader of the Third Party reminded the Chair that an amendment that he had proposed on April 2, 1997, had been ruled out of order and that he felt the nature of the amendment now before the House was very similar to that one.

The Chair has reviewed the Standing Orders of the Assembly and found no specific direction there.

The Chair has now had an opportunity to review some of the precedents of the Assembly. There are a number which, on the face of it, seem to support the contention that the amendment is in order.

I would cite two from the 28th Legislative Assembly as examples.

First, on April 28, 1993, a motion was before the House in the name of the Member for Faro, Trevor Harding, which read:

"THAT it is the opinion of this House that the Government of Yukon should show economic leadership by actively supporting the immediate stripping of the Grum ore deposit in the vicinity of Faro as an infrastructure investment to stimulate economic activity, to keep thousands of Yukon people working and to stave off private sector economic collapse due to the lack of any other immediate private sector opportunities of comparable scale."

An amendment was moved by the Minister of Justice, the Hon. Willard Phelps, which read:

"THAT Motion #38 be amended by deleting all the words after the word 'Yukon' in the second line and replacing them with the following:

"is showing economic leadership by actively supporting the stripping of the Grum ore deposit in the vicinity of Faro as an investment to stimulate economic activity, to keep Yukon people working and to stave off private sector economic collapse due to the lack of any other immediate private sector opportunities of comparable scale."

A second example is found on May 4, 1994, when the House was considering a motion standing in the name of the Member for Whitehorse Centre, Margaret Commodore, which read:

"THAT it is the opinion of this House that the Government of Yukon should immediately live up to its obligations under the Umbrella Final Agreement and commence negotiating in good faith with the Kwanlin Dun First Nation."

An amendment was moved by the Minister of Education, the Hon. Doug Phillips, which read:

"THAT Motion #40 be amended by deleting all the words after the phrase 'Government of Yukon should' and substituting for them the following:

"continue to live up to its obligations under the Umbrella Final Agreement and continue negotiating in good faith with the Kwanlin Dun First Nation."

Going further back, I would cite an example from the 25th Legislative Assembly when, on March 28, 1984, the Member for Faro, Maurice Byblow, moved a motion which stated:

"THAT the Government of Yukon, in recognition that the history of Yukon includes all regions of Yukon, should alter its tourism policy to include greater support of regions and communities outside the primary Alaska-Klondike highway corridors and the primary destination points of Dawson, Watson Lake and Carcross."

An amendment was moved to that motion by the Minister of Education, the Hon. Bea Firth, which read:

"THAT Motion #6 be amended by deleting the expression 'should alter its tourism policy to include greater support of regions' and substituting for it the expression 'should continue its tourism policy supporting regions.'"

The Chair, when making the ruling on the amendment to Motion #52 moved by the Leader of the Third Party on April 2, 1997, had not had an opportunity to review past precedents of this House and, instead, relied on Annotation 578 of **Beauchesne** which states, in part:

"An amendment proposing a direct negative, though it may be covered up by verbiage, is out of order."

and

"An amendment which would produce the same result as if the original motion were simply negated is out of order."

A review of amendments such as have been cited indicates that past Speakers and Houses have been more lenient in allowing such amendments. The Chair would take this as meaning more emphasis has been put on Annotations 567 and 572 in **Beauchesne**. Annotation 567 cites **Erskine May** when it states:

"The object of an amendment may be either to modify a question in such a way as to increase its acceptability or to present to the House a different proposition as an alternative to the original question."

Annotation 572 states:

"An amendment to alter the main question, by substituting a proposition with the opposite conclusion, is not an expanded negative and may be moved."

Taking into account the precedents of this Assembly, the Chair must rule that the amendment moved by the Member for Kluane is in order. Further, the Chair directs that the amendment should now appear on the Order Paper. If debate should resume on this motion, the Minister of Health and Social Services, who had been speaking to the motion at adjournment, shall be entitled to speak first to the amendment.

In reference to the point raised by the Leader of the Third Party about the amendment which he had moved on April 2 and which was ruled out of order, the Chair agrees that it would seem, by virtue of the precedents, the amendment could have been found to have been in order.

In making this ruling, the Chair would comment that he has been informed that the Point of Order raised by the Official Opposition House Leader reflects a concern that has been raised more than once in the past. Other Members from past Houses have expressed frustration with what the Chair would describe as "substitutional amendments."

The Chair, although understanding the point being made by the Official Opposition House Leader and of past Members, must, nevertheless, be guided by the rules and, in the absence of rules, the precedents of the House. If there is a desire on the part of Members for a different standard to be applied when determining if amendments are acceptable, it will be necessary for the House to provide direction to the Chair on this matter. Such direction is normally provided through reports of the Standing Committee on Rules, Elections and Privileges and, possibly, through amendments to the Standing Orders."

MOTIONS OTHER THAN GOVERNMENT MOTIONS

Moved by Mr. McRobb:

THAT it is the opinion of this House that:

- (1) contamination at abandoned military sites could have detrimental impacts on the Yukon's environment, fish, wildlife and people who depend on country foods;
- (2) clean-up of these sites should be undertaken on a priority basis; and
- (3) given the Government of Canada's ownership and jurisdictional responsibility for most of the Yukon land mass, both now and at the time the sites were contaminated, Canada must retain the responsibility for reclamation of these sites;

THAT, given the Yukon Government's current jurisdiction for fish and wildlife and the shared responsibility of Canada, Yukon and First Nations governments to manage for conservation, Canada has an obligation to consult with Yukon and First Nations

governments and the relevant land claims boards and councils in respect to matters affecting the reclamation of contaminated sites on Crown land;

THAT this House strongly objects to Canada's signing of an agreement with the United States of America regarding reclamation of U.S. military sites which may affect the clean-up of sites in the Yukon without any prior consultation with Yukon governments and people;

THAT this House urges the Government of Canada to provide assurances that contamination at Yukon sites will be cleaned up; and

THAT the Speaker forward copies of this resolution to:

- (1) the Right Honourable Jean Chretien, Prime Minister of Canada;
- (2) the Hon. Lloyd Axworthy, Minister of Foreign Affairs;

SPEAKERS' STATEMENT

"Before proceeding to Question Period today, the Chair would like to clarify the rules and practices regarding anticipation.

Standing Order 19 (1) (e):

'A Member will be ruled out of order by the Speaker if that Member anticipates any matter on the Order or Notice Paper.'

Guideline 12 of Guidelines to Oral Question Period states:

'A question is out of order if a debate is scheduled for that day on the same subject matter.'

Annotation 513 (1) of **Beauchesne** states:

'In determining whether a discussion is out of order on the grounds of anticipation, the Speaker must have regard to the probability of the matter anticipated being brought before the House within a reasonable period.'

In our House, "reasonable period" means the same day.

If any matter is scheduled for debate later in the day, the Chair will not be able to allow questions on that subject during Question Period. By way of example, as Committee of the Whole will be continuing debate on the Department of Community and Transportation Services this afternoon, the Chair will not be able to entertain questions on the programs and line items still to be carried. On

the other hand, if debate on a program in the Department has been completed, the Chair can allow questions on matters falling within that program.

If the Chair should neglect to notice that a matter is likely to be up for debate later that day, the Minister can always decline to answer based on anticipation.

The Chair hopes that this will clear up any confusion that may have arisen from Thursday, April 17, 1997."

SPEAKER'S RULING ON THE QUESTION OF PRIVILEGE

"On the Question of Privilege, I would thank the Member for Kluane for providing the proper notice, as required by Standing Order 7(1), of the Question of Privilege.

A review of the Member for Kluane's concern indicates that it is not 'privilege' in that the essential element of privilege is the right of free speech in this House. The complaint, while serious, more properly should have been raised, at the time, as a Point of Order.

The Member for Kluane asserts that the Leader of the Official Opposition violated guideline 8 of the Guidelines for Oral Question Period which states that 'A question must adhere to the proprieties of the House in that it must not contain inferences, impute motives or cast aspersions upon persons within the House or out of it.'. Annotation 481 of **Beauchesne** states, in part, that a Member, while speaking, must not impute bad motives or motives different than those acknowledged by a Member nor make a personal charge against a Member. Essentially the Member for Kluane is alleging that the Leader of the Official Opposition made an injurious reflection upon him. This falls within the category of unparliamentary language, which must be raised as a Point of Order and not a Question of Privilege. The Chair is not now able to deal

with it as a Point of Order as the proper time to raise such a Point of Order is when the offending words are used.

The Chair would, however, like to ask all Members to give careful consideration to the remarks they make, both on the record and off the record, in the heat of debate. Name calling and imputing motives do not add to the substance of debate. I would ask all Members to refrain from making personal charges against other Members and to use language which is appropriate to the decorum of this House."
