PETITIONS

The Clerk reported on Petition #2 as follows:

“Mr. Speaker, and honourable Members of the Assembly:

I have had the honour to review a petition, being Petition #2 of the First Session of the 31st Legislative Assembly, as presented by the Leader of the Official Opposition on December 16, 2003.

The Members will be aware that Standing Order 66(1) required that this report be delivered to them on the first sitting day of this Spring Sitting. It is to be hoped that the generosity for which Members of this Assembly are renowned will be fully exercised in this regard and that the unfortunate delay of the Clerk in meeting his obligation will be quickly and silently forgotten.

With respect to Petition #2, a number of the pages of the petition were photocopies of facsimiles. The majority of the petition, however, does contain original signatures and the photocopies therefore do not render it invalid. Also it should be noted that an argument may be made that the language of the petition strains the bounds of that considered appropriate. For future reference, Members and petitioners may wish to keep in mind the expectation set out in annotation 1029(1) of *Beauchesne* that the language of a petition be respectful and temperate. In this case, however, Petition #2 is found to meet the requirements as to form of the Standing Orders of the Yukon Legislative Assembly.

Patrick L. Michael
Clerk of the Yukon
Legislative Assembly”

The Speaker ruled that, accordingly, Petition #2 was deemed to have been read and received.

INTRODUCTION OF BILLS

SPEAKER'S RULING (Re: Imputing False or Unavowed Motives and Contempt of the Legislature)

Before proceeding to Orders of the Day the Speaker delivered the following ruling on a Point of Order raised on March 29, 2004 by the Member for Southern Lakes.

"The Member for Southern Lakes argued that the Leader of the Official Opposition had imputed false or unavowed motives to Members of the Assembly who are responsible for appointing members of the public to Boards and Committees.

Standing Order 19(g) says, 'A Member shall be called to order by the Speaker if that Member imputes false or unavowed motives to another Member.' In reviewing the Blues the Chair finds that the Leader of the Official Opposition did not speculate on the motives of any individual Member or Members of the House. Rather his criticism was cast more generally as a criticism of government practice.

The Chair therefore rules that there was no Point of Order in that regard.

However, the Chair would caution Members, as he did yesterday, to choose their words carefully so as not to damage the reputation of persons who are not members of this House and cannot defend themselves against statements made in this House. The Chair accepts the statement of the Leader of the Official Opposition that he had no intention of maligning anyone. However, Members should keep in mind that their words and actions can have unintended consequences.

The Chair would also like to comment on the discussion that arose on the Point of Order. In responding to the issue the Official Opposition House Leader asserted that there was no Point of Order. Other Members have, in the past, made similar statements. When the Chair recognizes a Member to speak to a Point of Order he is seeking advice about which rules or practices ought to be considered and how those rules or practices ought to be interpreted. Simply advising the Chair that there is, or is not, a Point of Order does not accomplish this. Further, during his remarks the Official Opposition House Leader also referred to the Member for Southern Lakes as a 'rookie' and 'thin skinned.' Such remarks are not in order as they are disrespectful and can lead to disorder. Similarly, later in the day the Minister of Environment referred to the Leader of the Third Party as 'the leader of the last party.' That is also a disparaging remark and is not in order. Members are to refer to one another by their recognized titles in this House.

On another matter both the Leader of the Official Opposition and the Leader of the Third Party used the phrase 'contempt for the legislature' during Second Reading of Bill #9. As the Chair of Committee of the Whole pointed out in a statement on December 9, 2003 contempt of the legislature is a specific and serious charge. Contempt of the legislature is a finding that only the Assembly can make after consideration of a substantive motion to that effect. It is not a statement that Members are free to interject into debate. The Chair appreciates that Members have strongly held views that they wish to express. However, the use of the word 'contempt' in that context is not in order."

NOTICE RE OPPOSITION PRIVATE MEMBERS' BUSINESS

Pursuant to Standing Order 14.2(3), Mr. McRobb, Official Opposition House Leader identified Bill #104 and Motion #217 as being the items to be called during Opposition Private Members' Business on Wednesday, March 31, 2004.

Pursuant to Standing Order 14.2(3), Ms. Duncan, Leader of the Third Party, did not wish to identify any items under the heading "Opposition Private Members' Business" on Wednesday, March 31, 2004.

SPEAKER'S STATEMENT

Prior to standing the House adjourned, the Speaker made the following statement:

“Order please. Prior to standing the House adjourned, the Point of Order raised by the Government House Leader with regard to the *Act to Amend the Public Service Act* – the Chair is in a conundrum. Having said that, this House now stands adjourned until 1:00 p.m. tomorrow.”

ASSENT TO BILLS

The Assembly received the Commissioner, the Hon. Jack Cable, in his capacity as Lieutenant-Governor, to give Assent to a certain Bill passed by the House.

The Commissioner, having entered the Chamber, took his seat in the Speaker's chair.

The Speaker, the Hon. Mr. Staffen, addressed the Commissioner:

"Mr. Commissioner, the Assembly has, at its present Session, passed a certain Bill to which, in the name and on behalf of the Assembly, I respectfully request your Assent."

The Clerk of the Assembly, Patrick L. Michael, then read the title of the Bill which had been passed as follows:

- Hon. Mr. Fentie

The Commissioner assented the Bill:

"I hereby Assent to the Bill as enumerated by the Clerk."

The Commissioner then retired from the Chamber.

ANNOUNCEMENT OF HOUSE BUSINESS

Mr. McRobb, Official Opposition House Leader, rose to inform the House of an agreement to proceed with debate on the Bill to be called during Opposition Private Members' Business on today's date.

SPEAKER'S STATEMENT (re: House Business)

"The Chair thanks the House Leaders for coming to this agreement. As they are aware, at our meeting this morning, the Point of Order raised by the Government House Leader posed a very difficult decision for the Chair. The Chair, of course, respects and agrees to follow the wishes of the House Leaders in this matter. However, the Chair, through this Point of Order, has been made aware of some serious issues that the House should address. The Chair will therefore provide a statement to the House on those issues at a later date."

OPPOSITION PRIVATE MEMBERS' BUSINESS
BILLS OTHER THAN GOVERNMENT BILLS (Second Reading)

The following Bill was called for Second Reading:

Bill #104 - Act to Amend the Public Service Act
- Mr. Hardy

A debate arising on the motion for Second Reading, the Hon. Mr. Edzerza moved in amended thereto:

THAT the Motion for Second Reading of Bill #104 be amended by adding the following:

"and that it be referred to a Select Committee of the Assembly; and
THAT the membership and mandate of the Select Committee be established by a separate motion of the Assembly following consultation between the House Leaders."

During debate on the amendment, Mr. Hardy, Leader of the Official Opposition moved the following sub-amendment:

THAT the amendment to the Motion for Second Reading of Bill #104, standing in the name of the Minister responsible for the Public Service Commission, be amended to read as follows:

"...and proceed to Committee of the Whole for initial debate, following which it may be referred to a three-person Select Committee of the Assembly that is comprised of one Member from each of the parties in the Assembly, that is chaired by a non-partisan Chair, appointed by mutual agreement among the three parties, for the purpose of inviting and hearing submissions from interested persons and organizations, and that will report back to the Legislative Assembly no later than the Fall 2004 sitting of the Legislative Assembly."

Speaker's Ruling

The Speaker ruled that the amendment proposed by the Leader of the Official Opposition was not in order as it presented a totally separate proposition to the amendment moved by the Minister responsible for the Public Service Commission and debate on the amendment continued.

Debate continuing on the amendment, Mr. McRobb, Official Opposition House Leader, moved the following sub-amendment:

THAT the amendment to the Motion for Second Reading of Bill #104, standing in the name of the Minister responsible for the Public Service Commission, be amended after the phrase "Committee of the Assembly" by adding the following:

"should Committee of the Whole fail to complete its study of the Bill by the end of the current sitting day."

Speaker's Ruling

The Speaker ruled that the amendment proposed by the Official Opposition House Leader was not in order as it offered a different proposition than proposed by the mover of the amendment. The Speaker further explained that: the central point of the amendment moved by the Minister was that Bill #104 stand referred to a Select Committee; and that the sub-amendment recommended that the Bill go first to the Committee of the Whole.

Debate continuing on the amendment, Mr. Fairclough, Member for Mayo-Tatchun, moved the following sub-amendment:

THAT the amendment to the Motion for Second Reading of Bill #104, standing in the name of the Minister responsible for the Public Service Commission, be amended after the phrase "Committee of the Assembly" by adding the following:

"whose function will be to develop appropriate whistle-blower protection legislation through an open and accountable process in time for the Legislative Assembly to consider it during the Fall 2004 sitting; and

THAT it be further amended in the final clause by replacing the phrase "House Leaders" with the phrase "Party Leaders."

Moved by Mr. Hardy, Leader of the Official Opposition:

THAT this House calls upon the Government of Yukon to rescind the loan-collection plan previously tabled by the Minister of Finance and introduce a new policy that will not allow Cabinet Ministers to evade their financial responsibilities to Yukon taxpayers, and that will not have the effect of needlessly forcing Yukon-owned businesses into bankruptcy. **(Motion #217)**

SPEAKER'S RULING (Re: Threats, Charge against another Member)

Prior to proceeding with Question Period the Speaker gave the following ruling on a Point of Order raised on Thursday, April 1, 2004 during Question Period by the Official Opposition House Leader.

"The Official Opposition House Leader objected to the Premier's statement that 'the Leader of the Official Opposition and the NDP will pay for the accusation that this government is using First Nations.' The Official Opposition House Leader interpreted this statement as a threat in contravention of the Standing Orders.

Standing Order 19(i) says, 'A Member shall be called to order by the Speaker if that Member uses abusive or insulting language, including sexist or violent language, in a context likely to create disorder.' The interpretation of this Standing Order has been that Members are not to make threats of bodily harm against one another or another person. Neither should Members threaten retribution against another's constituents. The Chair interprets the Hon. Premier's comments as meaning that he believed the Official Opposition's statements on an issue would not be looked upon favourably by voters come the next election. It was not a threat of bodily harm or of retribution against constituents. The Chair therefore concludes that there is no Point of Order.

The Chair would also like to clarify a statement he made last Thursday during Question Period. At that time the Leader of the Third Party asserted that the Minister of Environment had broken regulations regarding the issuance of a sole-sourced contract. The Chair intervened and said, 'The Leader of the Third Party can imply that the Minister broke the rules, but you cannot say for sure that he has broken the rules.' To be clear, it is not in order for a Member of this

Assembly to inject into debate a charge that another Member has broken regulations or the law. Such a charge may only be made by way of a substantive motion for which notice is required.

I thank Members for their attention. We will now proceed to Question Period.”

SPEAKER'S STATEMENT (Re: Allegations of Conflict of Interest)

"Before we proceed, the Chair would like to make a statement regarding a disturbing trend that has emerged in this House over the past two weeks. This trend is the making of allegations of, or allusions to, conflicts of interest by Members.

On April 7, 2004, during debate on Motion #225 the Member for Kluane suggested a potential conflict of interest on the part of the Member for Klondike. This potential conflict had to do with benefits the Member for Klondike might receive from a project the government has indicated its intention to proceed with, the construction of a bridge across the Yukon River at Dawson City. The Member for Kluane suggested this potential personal benefit was the reason the Member for Klondike supported the building of the bridge and that he attempted to influence the views of his Cabinet and caucus colleagues for the same reason.

However, the Member for Kluane is not the only Member to make such allusions recently. On March 31 during debate on Motion #217 the Premier alluded to a previous investigation by the Conflicts Commissioner and said the Leader of the Third Party had 'made an attempt to attack one individual.' Members should note, for the record, that the Conflicts Commissioner found no real or apparent conflict of interest on the part of the Leader of the Third Party.

Then, during Question Period on April 6, the Minister of Energy, Mines and Resources alluded to decisions taken by a previous government and the influence the Member for Kluane may have had on those decisions. Though the Minister did not mention any personal gain the Member for Kluane might have received, government Ministers have made such allegations in the past. As such the inference of conflict exists. The Member for Kluane said during the discussion on the Point of Order he raised that the Conflicts Commissioner investigated issues regarding the Member's interests at Aishihik Lake. The Conflicts Commissioner found no conflict of interest on the part of the Member for Kluane.

During debate on Motion #225 the Member for Kluane said of the issues surrounding the holdings of the Member for Klondike, 'maybe it should be a matter for the Conflicts Commissioner.'

The Member for Kluane has correctly pointed out one direction he and any other Member could follow in this regard. That is through laying a complaint with the Conflicts Commissioner pursuant to paragraph 17(d) of the *Conflict of Interest (Members and Ministers) Act*.

When the Assembly passed this legislation in 1995, it did uphold, in section 29 of the act, the Assembly's right to 'control, discipline or punish its Members.' However, the method by which a Member can raise a question of conflict of interest in the House is restricted.

The main point found in previous rulings is that, if a Member feels it is necessary to place allegations before the House about another Member's actions, it is essential that this be done in the form of a motion containing the charge being made and a proposal for dealing with it. It must be understood that to raise allegations in any other proceeding than debate on such a motion will be in violation of the rules found in Standing Order 19 and that the Member should, consequently, be ruled out of order.

A final point to be made is that Members should respect the decisions of the Conflicts Commissioner. To question those conclusions during debate is disrespectful to the conflicts process established by law and, to an extent, defeats the purpose of having such legislation.

The Chair thanks members for their attention."

SPEAKER'S RULING (Re: Standing Order 19(g) and using quotations)

Before proceeding to Question Period the Chair delivered the following ruling on a Point of Order raised on Wednesday, April 7, 2004 by the Hon. Mr. Jenkins, Government House Leader.

"The Government House Leader argued that the Leader of the Third Party, during the course of posing a question, had violated Standing Order 19(g) by attributing to him a false or unavowed motive. Upon reviewing the Blues the Chair finds that there is no Point of Order.

However the Chair notes that in speaking to the Point of Order the Leader of the Third Party defended her choice of words by saying that the words were a direct quote, though the author of the words was not named.

Members are familiar with the principle of order and decorum that, 'Members may not do indirectly what they may not do directly.' In cases such as this it means that while Members are at liberty to quote the words of others in legislative proceedings they must take responsibility for them. The fact that such words were first uttered by another provides no protection if those words are not parliamentary."

SPEAKER'S RULING (Re: Standing Order 19(g) and Language)

Prior to proceeding with Question Period the Speaker, gave the following ruling on a Point of Order raised on April 27, 2004.

“During Question Period the Leader of the Official Opposition said, ‘there seems to be no limit to what Members of this government will do to discredit people they don’t like.’ He also referred to the government as ‘intolerant and vindictive.’

The Government House Leader raised a Point of Order under Standing Order 19(g), the attribution of a false of unavowed motive to another Member. It is not clear to the Chair that the issue is one of motive. However, it is clear that the language used by the Leader of the Official Opposition was unparliamentary. Standing Order 19(i) says the Speaker shall call a Member to order if that Member uses abusive or insulting language in a context likely to create disorder. Likewise guideline number 8 of our Guidelines for Oral Question Period says a question must not contain inferences impute motives or cast aspersions upon persons within the House or out of it.

The Chair will also remind Members of the statement given by the Chair of Committee of the Whole on Monday of this week. At that time the Chair of Committee of the Whole said he appreciated that Members have strongly held views that they wish to express. At the same time the Chair reiterated that Presiding Officers have a duty – bestowed upon them by this House – to maintain order and decorum. As the Chair noted Members have expressed a desire to elevate the level of decorum in the chamber.

Strong language, like that used yesterday by the Leader of the Official Opposition, has a tendency to incite a similar response. This leads to disorder where Members begin making derogatory comments about one another, rather than discussing the issues before them.

Members know that the House is not the only avenue in which they can express their opinions. However, when they are in the House they must adhere to the proprieties of the House. The Chair does not believe that any Member – on either side of the House – would want to be described in the manner employed by the Leader of the Official Opposition.

Similarly, the Chair would like to make a statement about a question raised by the Leader of the Third Party yesterday. At that time the Member asked if changes to the *Liquor Act* were not forthcoming ‘because of opposition from MLAs who have a financial interest in seeing that neighbourhood pubs stay banned?’

Members will recall that on April 8 the Chair gave a lengthy statement regarding allegations of conflict of interest. That statement set out the proper procedure to be followed when Members wish to address conflict of interest issues. One of those procedures is to lay a complaint with the Conflicts Commissioner pursuant to paragraph 17(d) of the *Conflict of Interest (Members and Ministers) Act*.

The procedure to be followed when a Member feels it is necessary to place allegations about another Member’s actions before the House is to bring forward a motion containing the charge being made and a proposal for dealing with it. It is not in order to merely interject such an allegation into any other proceeding than debate on such a motion.

The Leader of the Third Party assured the Chair that she did not intend to suggest a conflict of interest. However, if Members consult the Blues they can see how such an allegation could be inferred. The Chair suggests, therefore, that Members exercise caution in the language they use when dealing with matters raised in this House.

We will now proceed with Question Period.”

DEPUTY SPEAKER'S RULING (Re: Unparliamentary Language imputing falsehoods)

Prior to proceeding with Question Period the Deputy Speaker, Patrick Rouble, gave the following ruling on a Point of Order raised on Wednesday, May 12, 2004, by the Member for Kluane.

"At issue was the statement by the Minister of Energy, Mines and Resources that 'for the Members opposite to insinuate that the Government owns the herd is in fact a falsehood. It is not true.'

The Member for Kluane is correct in his assertion that the use of the term falsehood, in that context, violates Standing Order 19(h), in that the Minister of Energy, Mines and Resources charged another Member with uttering a deliberate falsehood.

Unfortunately other such statements were made yesterday. Members will recall that the Chair expressed his discomfort with the term 'misinformation' as employed by the Leader of the Official Opposition. The term 'false excuses' was also used.

The Chair appreciates that Members disagree about issues raised in the House. However, Members must be judicious in how they express such disagreement. As a rule, Members are free to assert the truthfulness of their own statements. It is not in order for them to question the truthfulness of statements made by other Members. As Beauchesne's Parliamentary Rules and Forms notes in annotation 494:

'It has been formally ruled by Speakers that statements by Members respecting themselves and particularly within their own knowledge must be accepted. It is not unparliamentary temperately to criticize statements made by Members are being contrary to the facts; but no imputation of intentional falsehood is permissible. On rare occasions this may result in the house having to accept two contradictory accounts of the same incident.'

Members should also be respectful of one another when expressing their disagreement. The use of phrases such as 'get it into your head' and its variants are insulting and lead to disorder, as occurred yesterday. The Chair thanks all Members in advance for their cooperation in this regard."

“The Chair sensed some disorder in the Assembly during the question raised by the Member for Copperbelt. It appears to the Chair that some Members expressed displeasure with the question asked by that Member. As Speaker, I have a duty to ensure that the rights and privileges of all Members are protected. I would ask all Members to respect each other's privileges in this Assembly.

We will now proceed to Question Period.”
